

# Mikołaj Bernaciak

Junior Cloud Engineer, DevOps

## ABOUT ME

I'm interested in cloud solutions(AWS), DevOps issues and I would like to expand knowledge in this direction. Hard work and a "can-do" attitude that allows me to constantly develop, achieve goals and raise my skills to a higher level. I try to make up for the lack of production experience with self-development to be well prepared for the job position. I am expanding my knowledge while preparing for certificates. I'm a communicative, helpful person and willing to learn new things.
